**Jonathan**

Jonathan played trombone with us since he came to live in the area a year ago. We were saddened to hear of his sudden passing and we will be playing in his funeral service on Monday. His family were always loyal supporters of him and the work of the orchestra. Jonathan was finding that not all his faculties of youth stayed with him but his ability to play and make music with others never left him. Although he has gone to make music elsewhere, the inspiration and contribution he has made to our music making will always be there. He was due to play in today's concert and all this music has been rehearsed with him. That he was able to continue to make music throughout his life, and the joy of that can be realised when we play, is a cause for great warmth of the soul. Thank you Jonathan.
